

Usman Basharat

Front End Web Developer at DevTrove
Islamabad, Pakistan | engrusmanbasharat@gmail.com | 03181512749

Profile

Innovative and performance-driven Front-End Developer with deep expertise in React.js, JavaScript (ES6+), HTML5, Tailwind CSS, CSS3, and Bootstrap. Specializes in building modern, scalable, and accessible web applications with a strong focus on user experience and front-end architecture. Proven track record in developing responsive UI components, optimizing performance, and implementing design systems that align with both business objectives and user needs. Skilled at collaborating in agile, cross-functional teams and delivering pixel-perfect, production-ready code. Actively seeking a senior-level front-end position where I can contribute to high-impact projects, elevate UI/UX standards, and stay ahead of the curve in modern front-end technologies.

Skills & Strengths

- React Js
- JavaScript
- Tailwind CSS
- HTML5
- CSS3
- Version Control(Git & Git Hub)

Education

FUUAST - Islamabad | Bachelor's of Science | Computer Science, 2023 | 2.9 GPA

Experience

Front End Web Developer

February 2025 - Present

DevTrove - Islamabad, Pakistan

- Engineered and maintained responsive, high-performance web applications using **React.js**, **JavaScript (ES6+)**, **HTML5**, **CSS 3**, **Tailwind CSS**, and **Bootstrap**, with a focus on **scalability** and **code maintainability**.
- Optimized front-end performance through techniques like **lazy loading**, **code splittin g**, **minification**, and **asset bundling**, leading to improved **load times** and **Core Web Vitals**.
- Ensured **mobile-firs t**, cross-browser responsive design across diverse devices and platforms by adhering to **modern UI/UX principles** and web standards.
- Developed **modular**, **reusable** UI components following **component-based architecture** in React, enhancing **code organization** and **development efficiency**.
- Actively participated in **front-end architecture decisions**, collaborating closely with **UI/UX designer s**, **back-end developer s**, and **product teams** in **Agile/Scrum workflows** to deliver production-ready features.
- Committed to **continuous learning** and integrating emerging technologies, libraries, and frameworks to apply **modern development practices** in all projects.

Full Stack Zone - Islamabad, Pakistan | Nov 2024 - Jan 2025

- Engineered and maintained high-performance, responsive web applications using React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, and Bootstrap, ensuring maintainability and scalability.
- Optimized front-end performance through advanced techniques such as lazy loading, code splitting, minification, and asset bundling, resulting in faster load times and improved Core Web Vitals.
- Ensured seamless cross-browser compatibility and mobile-first responsiveness across various devices and platforms by adhering to modern design standards and responsive design principles.
- Integrated reusable and modular UI components, adhering to component-based architecture in React for improved code organization and scalability.
- Actively contributed to front-end architecture decisions and collaborated closely with designers and back-end developers in agile/Scrum environments to deliver production-ready solutions.
- Committed to continuous learning and innovation by exploring emerging web technologies, libraries, and frameworks, ensuring modern development practices were applied to every project.

Projects

Prism AI, Profiler Page
